

A SAFE SPACE FOR PEOPLE EXPERIENCING DOMESTIC ABUSE DURING THE CORONAVIRUS OUTBREAK

UK SAYS NO MORE has teamed up with Boots UK to launch Safe Spaces in their pharmacies across the UK.

Victims of domestic abuse will be able to access the consultation rooms in Boots UK pharmacies, where they will be able to contact specialist domestic abuse services for support and advice.

The scheme is in response to the desperate situation facing many victims who are isolating with perpetrators during lockdown, and who may be restricted from reaching out to friends, family, co-workers or support services whilst at home.

By creating this Safe Space in Boots UK pharmacies, we hope many will be able to safely access support whilst following Government guidelines.
