

Online Safe Spaces Four Month Report September (launch) - December 2020

Online Safe Spaces is a portal that you access via a widget from a customer facing website or employee intranet page. Online Safe Spaces is a free, open-source tool that is available to businesses and organisations across the UK.

By clicking the Safe Spaces widget, you will access the Online Safe Space, which holds a directory of national domestic abuse helplines, a GPS directory of local specialist domestic abuse services and assessment questionnaire. The site is available in a multitude of languages and has a quick exit button, taking the user back to original business page – providing a degree of safety to user.
